

## **Bloomberg Initiative for Global Road Safety**

### **Bangkok, Thailand**

- Post Title:**
1. Initiative Coordinator
  2. Coordinator for Road Design and Transportation
  3. Coordinator for Road Policing

**Type of Appointment:** Fixed – Term Appointment

**Organization Unit:** Union North America (UNA)

**Duration of Contract:** 5 years (2015-2020)

### **URGENTLY REQUIRED**

#### **1. “Road Safety Initiative Coordinator”**

##### **a. Organizational location**

- To be based in Chief Executive Office (or other high-level office with broad authority as appropriate)

##### **b. Qualifications**

- At least 7 years experience in project management with significant responsibility
- Academic qualifications – at least Master’s level
- Government experience preferred
- Familiarity with urban transportation/infrastructure or law enforcement/road policing
- Familiarity with social marketing campaigns
- Familiarity with interpreting quantitative data analysis
- English language proficiency required

##### **c. Tasks and Responsibilities**

- Work with city agencies and Initiative partners to develop detailed work plans with clear milestones for city’s road safety initiative
- Monitor and support progress toward work plan milestones
- Serve as focal point for city’s interaction with Union North America and relevant initiative partners
- Communicate regularly and report on initiative progress to senior city government officials, Union North America and relevant initiative partners
  - Submit written reports monthly
- Troubleshoot barriers to progress and identify opportunities to rapid achievement of success

- Organize meetings of city road safety task force monthly or every other month; compile and share reports on meeting proceedings; manage tasks and accountability process for activities directed by task force
- Serve as communications hub between initiative partners and city government
- Manage reporting and review of monitoring data to task force and other stakeholders
- Serve as coordinator of media and social marketing campaigns (in collaboration with city agencies, as needed)

## 2. “Road Safety Coordinator for Road Design and Transportation”

### a. Organizational location

- To be based in Transportation Department or in other city government office with authority over transportation, road works, and/or urban design policy and projects.

### b. Qualifications

- At least 5 years experience in urban transport policy, engineering, planning, road design, traffic design or related sector
- Academic qualifications – Masters degree or equivalent
- Local Government experience and familiarity with budgetary process preferred
- Quantitative data analysis skills preferred
- Understanding of traffic safety in cities, particularly for pedestrians and vulnerable users, and knowledge of mass transport systems.
- English language proficiency required

### c. Tasks and Responsibilities

- Coordinate city’s work in designing safer streets and safer mobility systems across relevant agencies (e.g., urban planning, road works, higher-level lead safety agency)
- Develop detailed work plans with clear milestones for mobility or safer streets-related components of the city’s overall road safety initiative
- Monitor and support progress toward work plan milestones
- Serve as liaison for city’s interaction with Initiative partner organizations providing transportation expertise (EMBARQ, World Bank GRSF, NACTO)
- Participate in the traffic safety training provided by Initiative partners
- Communicate regularly with initiative coordinator in chief executive’s office
- Report regularly on initiative progress to city senior transportation officials and to UNA and relevant initiative partners
  - Submit written reports on implementation status and progress report on a quarterly basis

- Troubleshoot barriers to progress and identify opportunities for rapid success.

### 3. “Road Safety Coordinator for Road Policing”

#### a. Organizational location

- To be based in Traffic Police Department or in other government office with authority over traffic-related law road policing activities

#### b. Qualifications

- At least 7 years experience in road traffic law enforcement policy, traffic policing, or related enforcement agencies
- Government experience preferred
- Academic qualifications – minimum requirements to become a police person; additional high level professional development qualifications as required to progress in the policing system.
- English language proficiency desirable but not required

#### c. Tasks and Responsibilities

- Coordinate city’s work to enhance road police’s enforcement of laws to reduce unsafe and illegal road user behaviors, particularly:
  - Speeding;
  - Helmet-wearing;
  - Drinking and driving
  - Using seat belts and child restraints
- Develop detailed work plans, in collaboration with Initiative partners, with clear milestones and relevant targets for police-related components of the city’s overall road safety initiative
- Support the development and delivery of evidence based/data driven enforcement activities.
- Monitor and support progress toward work plan milestones
- Serve as focal point for city’s interaction with Initiative partner organization providing technical assistance to road police (Global Road Safety Partnership)
- Communicate regularly with initiative coordinator in chief executive’s office
- Report regularly on initiative progress to city senior road policing officials and to UNA and Initiative partner
  - Submit written reports monthly

- Troubleshoot barriers to progress and identify opportunities for rapid success.
